HORSES KILLED AT BIGLERVILLE

Train Runs into Fine Team at Crossing Near Depot and Two Horses are Instantly Killed. Man on Pilot Unhurt.

The two horses of McClean J. Miller of Hilltown were instantly killed at Biglerville on Thursday afternoon about four o'clock when the local Reading freight ran into the team while crossing the street near the station. Mr. Miller, who was driving the team, was uninjured and Mahlon Hartzel, who was riding on the pilot of the engine, also escaped unhurt.

Mr. Miller was driving from Hilltown to Biglerville station to secure some fertilizer. He was driving out East York street towards the railroad and knew nothing of the approach of the freight.

Mr. Miller states that he failed to hear the electric warning bell at the crossing and also the several blasts which the engineer of the locomotive blew when he saw the team approaching the crossing. He had also blown the usual whistle at the customary distance before reaching the station.

A number of men rushed out when they realized that Mr. Miller was not aware of the approach of the train but the team could not be stopped and the engine hit the horses near the heads, the necks of the animals being broken and both dying instantly.

It was most fortunate that Mr. Miller escaped unhurt as he would have sustained serious injury if the team had gone a few more feet before being struck. Mr. Hartzel, who was riding on the pilot of the engine, prepared to jump when he saw that the accident could not be avoided but stayed on the engine when he realized that the horses would not be thrown against it.

BLACK OUT OF RACE

A special dispatch from York to the Philadelphia Ledger, dated March 30, says:

Jere S. Black, fusion nominee for Lieutenant Governor of the State several years ago, has announced that he will not be a candidate for Congress in the 20th Pennsylvania District, comprising York and Adams Counties. Petitions have been circulated and freely signed, but have been withdrawn at his request. They were in charge of S. Miley Miller, Democratic chairman of Adams County, and ex-Sheriff L. H. Greenwald, of Hanover. The announcement of Mr. Black has caused much disappointment as the members of the Democracy expected to carry the district with him on the ticket. The two counties are nominally Democratic, but the district has been represented for four terms by Daniel F. Lafean, Republican.

Charles A. Hawkins, who was the candidate for Congress on the Jeffersonian ticket in 1896, is the only Democratic candidate in the field at present. The names of Forry Loucks, L. M. Hartman and others are being mentioned.

MELVIN BECKER

Melvin Becker, son of Mr. and Mrs. Clayton Becker, of Conewago township, near Hanover died at 6 p. m. Wednesday, March 30, from typhoid pneumonia, aged 19 years. He is survived by his parents and one brother, George Becker.

After April 1, Dr. E. H. Markley will move his dental office ten doors lower down on York street, opposite Codori's meat store.

GETTYSBURG HAS BUSY DAY

First of April Proves to be a Busy Day for Gettysburg. Banks and Court House Offices Full of Business.

April first was as busy a day in Gettysburg as ever and the town had plenty of work from early morning until the day was well spent.

Moving matters occupied the attention of scores of Gettysburg people who changed their residences. Moving day was on in full force and every available team in the town was working. So many flittings have been found necessary for several days past that many people found it impossible to have their household goods transported except after night, no accommodations being available in the day time.

Financial business brought large numbers of Adams County people to town and the banks and Court House offices presented busy scenes all day long. Attorneys and others having money to place and the other customary first of April business to transact had their hands full and the town presented quite a busy scene. The number of teams in town made it look like a busy Saturday while the trains brought their full quota.

WANT THE BOXES PAINTED WHITE

Post Office Authorities at Washington Request Rural Route Patrons to Paint Boxes White. Names and Numbers.

Postmaster C. William Beales has received the following communication from Fourth Assistant Postmaster P. V. DeGraw:

"It is the desire of the Department that you earnestly request patrons of rural delivery out of your office to paint their boxes and the posts to which they are attached a pure white color. This course if pursued, will not only result in benefit to the patrons in serving to protect his box and post from damage by the weather, but will give all boxes a uniform color and serve to fix their identity in all parts of the country as United States mail boxes, and will give them a much neater and sightlier appearance than they now possess. It is also desired that patrons be induced to imprint their names and box numbers on boxes in black block letters about two inches high.

"It is also desired that you endeavor to induce road officials to paint upon the posts of boxes which are located at crossroads (but not attach signs thereto) the names of the towns or villages to which the crossroads lead, with an indicator showing the direction.

"Posts to which boxes should be attached shall be set in an easily accessible position at the side of the road and boxes securely fastened to a projecting arm of wood, or to a bracket of band iron about three sixteenths of an inch thick, or, if preferred, an automatic extension arm may be used."

GEN. W.P.BOWMAN HEADS THE N. C. P.

Major General Wendall P. Bowman to be in Command at Encampment of National Guards this Summer.

Brigadier General W. P. Bowman of Philadelphia, commander of the First Brigade was on Thursday appointed major general commanding the division, and Colonel Charles M. Clement, of Sunbury, commanding the Twelfth regiment, was promoted to a brigadier general.

The appointments were made by Governor Edwin S. Stuart, commander in chief of the division, as of March 29, and were announced in a general order issued by Adjutant General Thomas J. Stewart, General Stewart in announcing the appointment said that Gen. Bowman is the only one of the present general officers of the National Guard who has seen service in the Civil War.

The appointment of General Bowman fills a vacancy which has existed in the major generalcy since the retirement of Major General John A. Wiley, of Franklin, who retired on age last August after long service. Since that time Brigadier General C. Bow Dougherty or Wilkes Barre, commanding the Third Brigade and senior brigadier general, has been acting as major general commanding.

Mr. and Mrs. John Dick, of Gladhill's Station, were helping James Dick to move.

A fire broke out some distance from Gladhill's Station on Tuesday afternoon and burned over a lot of timberland for different parties. Men were fighting the fire nearly all night on Tuesday. On Wednesday the Fairfield Station men were fighting a fire near Jack's Mountain Station.

Mrs. Joseph Scott who had been living with Ambrose Sanders for the last winter moved her furniture into Fairfield.

CALL OF THE WILD

An innovation in high class drama will reach local theatre goers when Mr. Franklin Woodruff in "Call of the Wild" James K. Hackett's New York success will be produced here. De-lightfully told, with a flavor of the metropolis which is quickly recognized. The play has already a New York recommendation where it made an instant hit. It is a hit in every city where it has been presented by the excellent company, society turning out in force and setting the seal of approval upon it. Walter Theatre, Monday, April 4.

LOST: pair of gold nose glasses. Reward at Times office.

TAFT AT BREWER FUNERAL
President Attends Services of United States Supreme Court Judge.
Washington, April 1.—Funeral services, simple and unostentatious as he had wished them, were held for Justice David J. Brewer, of the supreme court of the United States. An hour later his body was on its way for burial at Leavenworth, Kan.
The president of the United States, the members of the supreme court, with the exception of Justice Moody, who is ill, and representatives from the house and senate, sat with reverently bowed heads through the short service and acted as honorary pallbearers. Only members of the family and a few intimate friends were present beside them. All, with the exception of President Taft, went with the body to the special car at the railroad station.
All classes in George Washington university, where the late justice was a lecturer, were abandoned and the university buildings were closed during the day.
The train bearing the funeral party will arrive in Leavenworth on Saturday morning. Services will be held there in the First Congregational church. Burial will be in Mount Muncie cemetery, beside the graves of the justice's first wife and her daughter.

FRUIT FROM A ROSE
California Horticulturist of a New Edible Delicacy.
Berkeley, Cal., April 1.—Hugo Lilenthal, a local horticulturist, announces the discovery of an edible fruit from the climbing rose. He declares that this fruit will in course of time take the place of the Loganberry, to which it is allied.
Lilenthal succeeded in obtaining the fruit by cross grafting. The fruit, which he says is quite nutritious and has a flavor like a pineapple, may be eaten either raw or cooked.

SEEK MIDDLE MEN IN BRIBE SCANDAL
Pittsburg Probers After Those Who Handled Money.
Pittsburg, Pa., April 1.—With the handing down of sixteen indictments, the grand jury investigating the municipal bribery scandal has practically wiped the slate clean of the councilmanic end of the case. The present inquisition is believed to be drawing to an end, but before closing up business the jury it is believed, will indict others.
The probers are now devoting most of their time to an investigation of the four city depositaries which are alleged to have contributed to the \$45,000 corruption fund taken to New York for distribution.
Interesting developments are expected to mark the closing sessions of the grand jury, and it is said that before final adjournment indictments will likely be found against persons who are not identified with either councils or the depositaries, but who acted as "middle men" in the bribery transactions.
Some of the men indicted will make a strenuous fight.
P. B. Kearns, an indicted councilman, declined to testify before the grand jury with reference to what he knew of bribes being given councilmen. He was placed under arrest and when brought before Judge R. S. Fraser said that he might incriminate himself giving testimony before the grand jury. Judge Fraser ordered Kearns committed to jail for contempt of court. Kearns then weakened and went before the grand jury.

Free Liver Remedy
It is well to stop a physical ailment at the first signs of its approach, and that is especially true of liver trouble, which can eventually give rise to so many serious complications. Many have liver trouble and imagine it is indigestion, and hence take the wrong remedy.
When the liver does not store up sufficient gastric juices it becomes sluggish, and in this way disturbs the stomach and bowels, with which it is supposed to work in harmony. Then comes the sallow complexion, the pimply face, the dull pain in the forehead, the thinning of the blood, etc. A very quick and sensible way to stop the trouble as well as to cure it is by the use of Dr. Caldwell's Syrup Pepsin, which contains ingredients especially intended to promote the activity of the liver.
Among the many thousands who have written the doctor about the results achieved with his remedy, and who are glad to make the facts public so that others can help themselves, are Mr. Jas. Kennedy, St. Louis, Mo.; Mrs. S. A. La Rue of Smith's Grove, Ky., and many others.
These, like thousands of others, started the use of Syrup Pepsin with a sample. If you will a medical advice you may also obtain a free trial bottle. This will prove to you that liver trouble is promptly cured with this remedy or money will be refunded. Having tried it you can then buy it in the regular way of your druggist at fifty cents and one dollar a bottle, and the latter is sufficient for an entire family.
This remedy is a vast improvement over cathartic tablets and salts, which only do good for the time being. Syrup Pepsin is permanent in its results, is pleasant to take and does not gripe. It is especially good for all those who cannot stand a violent purgative.
Dr. Caldwell personally will be pleased to give you any medical advice you desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 521 Caldwell Building, Monticello, Ill.

Stomachs Repaired
Relieves Distress in Five Minutes
Let Mrs. Griffith tell you about Mi-na, the greatest prescription for stomach troubles ever written:
"For years I have doctored for acute gastritis, but only received slight benefit, and had to be careful what I ate. But, thanks to Mi-na stomach tablets, I can now eat anything. Last Christmas, after partaking of a hearty turkey dinner, I was seized with an attack of acute indigestion, and the doctor worked over me for hours before I got relief. He paid me eight visits before I could say I was well enough to sit up. But since then I have taken Mi-na tablets, and I have not been troubled since. Before using Mi-na I had attacks about every month."—Mrs. Ida Griffith, 1213 C St., Washington, D. C., July 5, 1909.
Mi-na stomach tablets are sold by druggists everywhere and at People's Drug Store for 50 cents a large box. They are guaranteed to cure indigestion, sour stomach, belching gas, dizziness, biliousness, heaviness, or any stomach ailment.

GOING DEEPER IN INSURANCE PROBE
\$10,000 Was Price Asked to Kill a Bill.
New York, April 1.—George F. Seward's charge that Edward A. Brown offered, in 1892, in behalf of Senator "Big Tim" Sullivan, to have an insurance bill killed for \$10,000, was corroborated in some details by E. E. Clapp, formerly of the Fidelity and Casualty company, of which Mr. Seward is president, at the insurance investigation which is being conducted by Superintendent Hitchcock. Mr. Clapp is a brother-in-law of former Warden Brown, of Sing Sing prison.
In 1892 there was before the legislature a bill which would have restricted the business of the Fidelity and Casualty company. Clapp said that the warden suggested to him that Edward Brown, who was then purchasing agent at Sing Sing and was frequently at Albany, might know of some way in which the bill could be defeated. It was the warden who suggested the meeting between Edward Brown and Mr. Seward, he said. The witness said he arranged the meeting, and later heard from Mr. Seward that he had rejected Brown's proposal.
The next witness was John B. Lunge, of Hartford, Conn., who is vice president of the Travelers' Insurance company, of Hartford.
He said the Travelers first employed William H. Buckley, the legislative agent of fire insurance companies, in January, 1903. Buckley was retained to get the liability reserve bill through the New York state legislature solely on account of his familiarity with insurance matters.
When the bill had been passed Buckley called on the company for the payment of \$21,400. The company thought the bill excessive, but paid it.

ROOT SEES U. S. OWNERSHIP
Objects to Giving Official Powers to Fix R. R. Rates.
HIS VIEWS ON MERGER
Thinks Administration Bill is an Advance Over the Existing Law. Favors Traffic Agreements.
Washington, April 1.—Senator Root consumed three hours of the time of the senate in continuing his speech in defense of the administration railroad bill. He again failed to conclude his remarks, but his assertion that to grant any government official the power to fix railroad rates would be a step in the direction of government ownership, excited much interest and aroused considerable discussion.
The senator also defended the merger provision of the bill as a great advance over existing law, in that it made the purchase of one company's stock by another an offense, while he argued such acquisition was not now illegal except as part of a conspiracy. He also supported the traffic agreement section, but expressed a willingness to require such agreements to be dependent upon the approval of the interstate commerce commission.
As to Traffic Agreements.
Mr. Root declared the present prohibitive act provoked its own violation. This course was most demoralizing and should not be encouraged by failing to put into the power of the railroads to observe the law and still make their agreements.
He argued that in many matters the railroads were practically required to enter into agreements, and so long as this was true, he said, it was absolutely necessary that the roads should be authorized to come together. To do this would be to wipe out an anomaly and abuse.
Mr. Depew advocated amending the bill so as to require governmental approval to agreement among railroads. He said he had held to that position for many years before he entered the senate.
"And I believe that is the attitude of every railroad man in the country," he added.
Senator Clapp said he would insist that the bill should be worded so as to make agreements unlawful unless approved by the commission.
Says Federal Ownership.
Mr. Root said he never would consent to give to the commission the right to suspend a rate fixed by a railroad without investigation. He would not consent that any official should fix the railroad rates, but was willing that the government should supervise rates. To do more would be to change from the American to the European system, he said, with government ownership inevitably following.
"We all desire the extension of our system, but we will never say to the capital of the country that we encourage its investment only with the end in view of concentrating its control in Washington," said Mr. Root.
Where the Difference Is.
Mr. Cummins asked whether there was any difference in principle in giving the commission the power to suspend rates for sixty days for the purpose of investigating and ingiving it power to make an indefinite suspension.
"The power to render indefinite suspension is the power to render final judgment," responded Mr. Root, "whereas the power of temporary suspension is like the granting of a temporary injunction. The power to suspend indefinitely involves the right to suspend without any investigation."
Mr. Bacon took issue with Mr. Root's assertion that the fixing of rates by the government would lead to government ownership. He said that for thirty years the railroad commission of Georgia had had such power.
Mr. Root replied that there would be found to be a vast difference between state and government control. The chief function of ownership was the fixing of rates, he said, and he argued that if the state could fix rates it could so control them as to reduce them to a point where it might be necessary to take absolute control.

MURDER SUSPECT.
Albert W. Wolter and Kate Miller, His Common Law Wife.

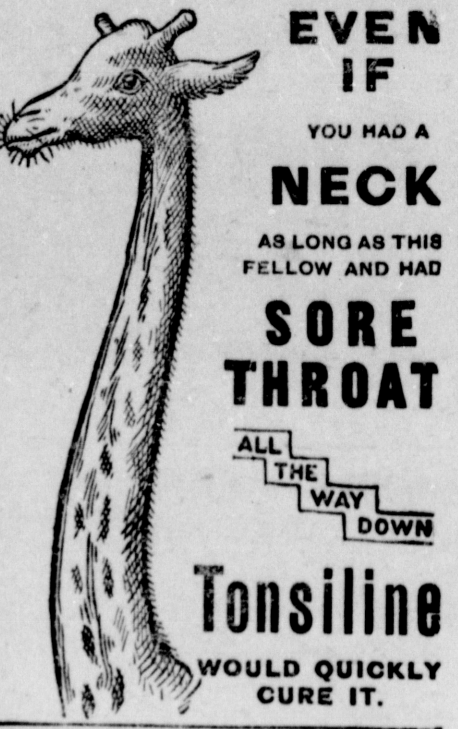

REFUSED TO PLEAD
New York Murder Suspect Wanted More Time.
New York, April 1.—Albert W. Wolter, indicted for the murder of sixteen-year-old Ruth Wheeler, the young stenographer, failed to plead when arraigned before Judge Mulqueen. Wallace D. Scott, his lawyer, wanted more time. Judge Mulqueen said that he would give him twenty-four hours.
Judge Mulqueen said further that the case would be placed on the calendar for this afternoon. A date for the trial will probably then be set. It is almost certain that the date will be a week from Monday.
Wolter is accused of enticing Miss Wheeler to his apartments in answer to an advertisement for a stenographer, choking her and placing her body, while alive, in a fireplace in an attempt to cremate it. Kate Miller, who lived with Wolter, gave incriminating evidence against him.
Scott wanted a least ten days to consult with his client before the latter made his plea, but the court remarked that any intelligent lawyer would need about five minutes. The police have worked up what they believe to be a flawless case against Wolter.

Thin Folks Made Fat
The Way Samose Works Its Wonders—Guaranteed by L. M. Buehler.
Physicians and chemists for years have studied the problem of making a flesh-forming food, but it is only within the last few months that a bright nutriment-covered the prescription that took with the daily meals gave a positive increase in flesh. In fact it was so certain in its action that a guarantee was attached to each package stating that if weight did not increase as a result of using it, the purchase price would be refunded.
This preparation is now put up in convenient form for use under the name of Samose.
Taken with each meal, it enables the food you eat to assimilate with the system and that in connection with its own flesh-forming and tissue building foods gives healthy flesh.
L. M. Buehler has secured the agency in Gettysburg for Samose, and as the percentage of satisfactory results from the use of this prescription is so nearly one hundred per cent he feels there is no risk in offering to refund the money if Samose does not do all that is claimed for it.

SOFT COAL MINERS STRIKE

Nearly All the Collieries Have Been Closed.

ABOUT 200,000 MEN OUT

Leaders Declare Suspension Will Be For Only a Few Days—Operators Will Grant Advance Asked For.

Pittsburg, Pa., April 1.—Practically every miner of the 45,000 in the Pittsburg district walked out of the mines and not a wheel is turning. The scale expired at midnight. While strike leaders declare that it will be a matter of but a few days until a scale granting the advance asked is signed, there is bitter disappointment over it having been necessary to close the mines. Now that they have been closed, operators say they will be in no hurry to open them. Nine big operators of the Pittsburg district have signified their willingness to grant the raise asked by the miners, but they have also decided not to put the advance into effect until all other operators agree with them, and so their mines have been closed with the rest.

The operators are prepared for a long strike. Not in years have the mines run so full as in the past two months, and coal is stacked up heavily at every available point. The workmen, too, declare they are in better condition to handle a fight than ever before, that they have more money in the treasury and that the operators are pressed with orders and cannot afford a long strike.

According to District President Feehan, the miners of the Pittsburg district will not long remain idle.

"The signing of a new wage scale will be a simple matter," said President Feehan, "if we can but dispose of the powder question. This question has for two years been the thorn in the side of the Pittsburg district, and although I believe that there will be a lively fight over its settlement, I believe that an adjustment of the difficulty will be arrived at now without undue loss of time, to either the miners or the operators."

A prominent operator also said that a permanent settlement of the working agreement for the next year was but a question of a few weeks at least.

"I am assured," said the operator, "that many independent operators have already signified their intention of signing the new wage scale, and the consolidated companies will likely follow their footsteps."

Believes Suspension Temporary.

Indianapolis, Ind., April 1.—The 200,000 organized miners of the bituminous coal fields of the United States are on strike. They will stay away from the mines until the operators consent to pay an advance in wages of 5 cents a ton. This is according to the announcement from the headquarters of the United Mine Workers of America in this city.

"I have received no information that the miners and operators of any district will get together," said Thomas L. Lewis, president of the organization. "It is unfortunate. But district agreements will be made speedily. I am confident that suspension of work will continue only a few days."

Indiana Mines Closed.

Indianapolis, April 1.—With the expiration of their agreement with the Indiana coal mines the 100,000 miners quit work. Many of them removed their tools from the mines, and all of them carried away their working clothes, which they usually leave in the mines over night. The suspension finds the operators with a fair supply of coal on hand, but in many of the manufacturing cities there is very little steam coal in the sheds.

900 Mines Closed in Illinois.

St. Louis, Mo., April 1.—Nine hundred coal mines in Illinois closed down and 75,000 miners stopped work. The mines will be closed until a new wage scale is signed. The mines will be closed for probably sixty days and possibly for four months, according to statements of members of the operators' executive committee.

Bay City, Mich., April 1.—Michigan miners numbering 3400 men quit work pending a settlement of the scale in the competitive district which failed in the Cincinnati conference.

LAW IS AFTER ARMOUR

New Jersey Prosecutor Gets Requisition Papers For Beef Packer.

Trenton, N. J., April 1.—Requisition papers for the extradition of J. Ogden Armour, of Chicago, who was recently indicted by the Hudson county grand jury for conspiracy in controlling the prices of meat products, were filed with Governor Fort by Prosecutor Garven, of Jersey City.

Requisition papers were filed several days ago with Governor Fort for the extradition of Louis F. Swift and Edward Morris. It is understood that before Governor Fort will sign the papers he will hear argument by counsel for the indicted men, showing that they were not in New Jersey at the time the indictments were found against them and that they are not liable to extradition.

RAILROADS WILL RAISE FREIGHT RATES

Shippers to Pay \$20,000,000 Increase on Pay Rolls.

Chicago, April 1.—An increase of nearly \$20,000,000 annually in the wages of railroad employees has been either granted or offered by railroads throughout the country within a comparatively short period, according to announcements that followed the decision of officers of the Pennsylvania railroad to boost the pay of its army of employees to the extent of \$7,000,000 a year.

Coincident with the announcements it was reported with renewed strength that railroads—east and west—intended to advance commodity railroad freight rates following the wage increases. That the roads will make every effort to meet these advances by higher freight rates is regarded by the shippers as inevitable, although they are preparing to fight any cut in their profits to the last ditch.

Such articles as brick, cement, drain pipe, tile, sewer pipe, iron and steel and agricultural implements are mentioned by the roads as being too low as compared with other articles. Commodity rates are in general about 25 per cent lower than class rates for similar articles, and it is the endeavor of the roads to bring the two kinds of rates closed together.

The recent wage advances made or offered by railroads are as follows:

Pennsylvania, east of Pittsburg, \$4,000,000; Pennsylvania, west of Pittsburg, \$3,000,000; New York Central, east of Buffalo, \$750,000; New York Central, west of Buffalo, \$500,000; other New England lines, \$250,000; trunk lines other than Pennsylvania and New York Central, \$2,000,000; New York-Buffalo roads and roads, \$1,000,000; Southern roads, \$1,000,000; lines west of Chicago, \$5,000,000; Philadelphia & Reading, \$1,400,000. Total, \$19,400,000.

NO MORE PRISON STRIPES

Blue Suits Will Replace Zebra Garb in Western Penitentiary.

Pittsburg, Pa., April 1.—There are so many "gentlemen convicts" among the 700 prisoners in the western penitentiary that Warden John Francis announced that the stripes are to be practically abandoned at that institution. Neat suits of blue with class letters on them are to be substituted gradually for the stripes, and only the very worst behaved men are to be punished by uniforms of the "zebra" type.

At present, however, even a bank president and two former councilmen at the penitentiary are wearing the humiliating prison clothes.

Pinchot Leaves For Copenhagen.

Hamburg, April 1.—Among the passengers who landed here from the steamer President Grant was Gifford Pinchot, formerly forester of the United States, who, it is said, was summoned to Europe by Colonel Roosevelt. In order to avoid attracting attention he traveled under the name of Gaylord Smith. Mr. Pinchot left for Copenhagen.

TAFT DESIRES TO NAME BOWERS

Will Get Place Unless Anti-Trust Cases Interfere.

MAY DELAY APPOINTMENT

Solicitor General Will Become a Supreme Court Justice If Retaining In Oil and Tobacco Cases Are Unnecessary.

Washington, April 1.—Lloyd W. Bowers, solicitor general, will be appointed associate justice of the United States supreme court to succeed the late Justice Brewer, unless President Taft decides that it would be inadvisable to have sitting as judge to hear and pass upon anti-trust cases one who has been connected with the department of justice.

It is understood that the president is desirous of appointing Mr. Bowers and is now considering the situation created by Mr. Bowers' service in the department of justice. Mr. Bowers prepared the government brief in the corporation tax cases now pending before the supreme court, and since he has been connected with the department of justice it has also presented to the court the tobacco trust and the Standard Oil cases, although he has not been actively engaged in the prosecutions of either of the latter.

There has been talk of the possibility of a rehearing of the Standard Oil and tobacco trust cases, and in such a contingency there is some question as to the propriety of Mr. Bowers sitting in judgment on these cases. This is the phase of the situation that the president now has under consideration.

Don't Believe Rehearing Necessary.

Friends of President Taft say that he does not believe that a rehearing of either the Standard Oil and the tobacco trust cases will be necessary. They describe the president as confident that Justice Brewer's death will have no effect on the outcome of these important cases. The president's friends add that he believes that the government has won its contentions not only in the Standard Oil and tobacco trust cases, but in the corporation tax case.

The president and the attorney general believe, it is said, at least one of the anti-trust cases, probably the tobacco case, will be decided in the near future and that this decision will afford an opportunity for the administration to determine just where it stands in regard to the prosecutions under the Sherman anti-trust law.

President Taft probably will be in no hurry to appoint Justice Brewer's successor if these is no possibility of a rehearing of the trust cases. If these cases do not come up again the president may hold off on the appointment until June 1, and there is strong probability that he may let the nomination go over until next fall.

Erie Railroad Employees Decline to Accept Terms.

New York, April 1.—The Erie Railroad company offered all its employees now receiving less than \$300 a month an increase of 6 per cent in wages, provided the original demands made by the men would be withdrawn.

Representatives of the men refuse to accept. They said the original demands would be insisted upon.

The New Jersey Central is expected to make a similar offer of 6 per cent increase. But the matter is said to be held in abeyance because the increase would bring that road's wages up to within 2 per cent of the Baltimore & Ohio settlement. An offer of this kind, it was said, would provide a powerful lever with which the employees of the New Jersey Central could enforce their full demands.

POWDER BLOWUP KILLS TWO

Buildings Are Shaken and Windows Smashed by the Shock.

Seranton, Pa., April 1.—Two men were killed and another injured by an explosion of No. 1 wheel mill of the Rushdale Powder company's works at Jermy, near here.

The dead are James Arthur, aged fifty years, married, and Elias Cobb, forty-five years old, married.

Albert Moon, twenty-four years old, was badly injured. But probably will recover. The wheel mill was a frame structure, and it was destroyed by the explosion.

A number of windows in buildings near the mill were shattered. The mill was owned by the Dupont Powder company, of Wilmington, Del.

Vanderbilt Rumor Not Confirmed.

San Francisco, April 1.—No confirmation can be obtained here of the rumors that Mrs. W. K. Vanderbilt, Jr., has taken a house at Reno with the purpose of establishing a residence and obtaining a divorce. She is at present at Delmonico, Cal.

Switchmen Get a Raise.

St. Paul, Minn., April 1.—Switchmen of the northwest received an advance of 3 cents an hour, according to an announcement of the St. Paul railroad. This increase is made, the officers say, in accordance with the award given by a board of arbitration in Chicago.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

AN EASTER SERMON

By GRACE ETHEL WEEKS

Copyright, 1910, by American Press Association.

The Rev. Tom Howard was not cut out for a clergyman. He was Tom at school, Tom in college and Tom in the theological seminary. He was a good fellow whom everybody loved, a big framed, big hearted man who should have followed an active career. He had stood low in his classes while in college, but had redeemed himself on the football gridiron, carrying his university colors to victory on his own heroic shoulders.

When Tom accepted his first call he tried extemporaneous sermons. They were not satisfactory. Members of his congregation hinted to him that they would prefer written sermons. This was a blow to him. In college he had usually secured the services of some student possessing literary gifts to write his essays for him. He returned to that plan.

Howard skirmished till he secured the name of a clergyman living in a small town distant from the city in which he himself lived who made a practice of writing sermons for other incumbents of pulpits. Tom thought it a pity that this man was born with the ability to write not only his own sermons, but those of other people, while he, poor fellow, was not able even to write his own. There was something pathetic in this big broad shouldered fellow, in the vigor of his youth, strong as an ox, not being able to get up a homily that would require a brief twenty minutes to deliver.

Howard wrote the Rev. Egbert Inglehart asking if he would sell him sermons. Inglehart replied that he would and named his price. Howard agreed to pay it and ordered half a dozen sermons. They were sent within a fortnight, and Howard was delighted with them. After delivering one of them many of his congregation surrounded him, pouring forth congratulations that he had found the true method of getting up his sermons. Mr. Howard congratulated himself that he had. At the same time he felt somewhat uncomfortable at having his abilities supplied by another.

There were certain points in the sermons that were very unlike Mr. Howard, a feminine tenderness at times more befitting a reverend cream cheese than a reverend athlete. Howard wrote Mr. Inglehart about it, and Inglehart asked him to send him his photograph. The photograph was sent, and Mr. Inglehart asked: "Why didn't you send it before? Now I know what kind of a man you are and can write for you accordingly."

The next sermon received was a Thanksgiving address to be delivered on the date of a great football match between two prominent universities. It was bristling with such expressions as "fight the good fight," "smote them hip and thigh" and "conquer by the Lord's help." In delivering it the minister was in his element, and his sermon was voted a brilliant success.

From that time forward Howard continued to grow in favor with his flock. Most of the girls in the congregation set their caps for him. But there is safety in numbers. Besides, the clergyman didn't fancy any of them. However, he received many hints that the church would prefer a married pastor, and he began to think he must marry or find another field of labor. Thinking that one who had helped him out so well with his sermons might be equally serviceable in a matter of matrimony, he wrote Mr. Inglehart, with whom he had become quite intimate through correspondence, of his dilemma and asked him if he knew of any girl who would make a good clergyman's wife. Inglehart replied that there were a number of fine young women in his parish and if he would come up Inglehart would give him a chance to look them over. Howard replied that he would go up for a brief visit in Lent, because he wished to talk over a sermon for Easter that would bear upon the duty of the young men of his congregation to marry. This would include himself, but he was doing his own duty in looking for a wife.

So during the second week in Lent, Howard, having secured a classmate in the seminary to take his place at daily services for a day or two, went to visit Inglehart. He had expected that as a matter of course his reverend brother would invite him to stay at his house. But he received no such invitation and on arrival went to a hotel. The same morning he called on Inglehart.

"Please step into the study," said the maid who admitted him.

Howard passed into the study and saw a girl writing at a desk.

"Beg pardon," he said, "I supposed I should find your father in here."

"You are Mr. Howard. I know you from the photograph you sent me."

"Sent you?"

"Yes; I pass as Egbert Inglehart. That was my father's name. I have written the sermons sent you."

The big man looked down on the girl, and a hot blush spread over his face. The girl looked amused.

"You desire me to help you to find a wife," she said.

"No, I don't—that is, if you will accept the situation yourself. With a wife to write my sermons I can fight the devil most advantageously."

The Easter sermon was delivered, and it was a splendid effort, and many of the young men were converted to matrimony. As to the girls, not one in the congregation needed conversion. Just before the benediction the pastor announced his engagement.

Helpful Pig Tips.
By proper feeding the feeder can do much toward making a litter of pigs strong at birth, provided the breeding is right.

The airships are flying high, but they cannot overtake pork. The humble pig has become the most important animal on the farm.

Scatter whole oats on the ground or platform every day for the brood sow to gather up. This will give her occupation and exercise, which are very necessary.

Style
Standard

Style in a Hat is in its shape. Many a hat is stylish when you buy, but not so after the first rain. Lamson & Hubbard hats hold their distinctive stylish shapes and lustrous finish because they are made from the famous L. & H. Fur-Felt. The furs are mixed in just the right proportion to prevent cracking or softening, and are then colored with L. & H. Fast Dye. A strict laboratory test guarantees that only perfect materials go into an L. & H. Boston-made for 30 years with that reputation. Because quality counts, L. & H. Hats are made

Have Your Deeds Recorded

By an Act of Assembly of 1893, "All Deeds and Conveyances" shall be recorded within ninety days after their execution, or shall be adjudged fraudulent and void against subsequent purchasers. Also the Act of Assembly of 1900, prescribes a short form of Deeds, and "again requires the recording to make them valid." It is also a great protection against loss or deed being burned by having them recorded, and costs but a small sum, compared to getting a new deed.

Bring or send them into the Recorder's office and in a few days they will be returned to you.

A BLAZE OF CONVICTION

Sweeping Over the Whole Country.

The more people know of the great discovery that has made so many remarkable cures throughout the state during the past few months, the more convinced are they of the great merit of Root Juice. Thousands of people have been cured by it all over the country. Many that use it a short while are so loud in their praise that their neighbors crowd into the drug store to get some of the health promoting Juice. Usually one bottle will convince, and it is but seldom that five or six bottles dose not make a complete cure of indigestion, constipation, nervous weakness, rheumatism and other troubles arising from a diseased condition of the stomach, liver, kidneys and bowels. It seems to cure by removing the cause. It heals and tones the organs that make and filter blood. People are going in crowds many miles to see the man that discovered the wonderful curative agent and get some of it. The People's drug store has the agency at this point. Root Juice is sold for \$1 a bottle or three for \$2.50.

BUNGLING WITH BROODY BIDDY

It's a miracle to many how an old hen will steal off to a brush heap, sit out in all kinds of weather and come off her stolen nest with every egg hatched, but it's simply because there were no humans round to bungle the job.

As sure as spring comes criticisms of the cluck begin and poets pose her as

TOO BIG FOR THE NEST.

perverse, when it's really the reverse; it's a case of bungling with Biddy. These bunglers set eggs that are too old, chilled, infertile, misshapen, from weakly stock or they set good eggs in dirty, lousy nests.

Hens of low vitality, without sufficient blood heat to hatch any or livable chicks, are set; those that are too tightly to sit steadily or too awkward or clumsy to move carefully among the fragile eggs or the hens are given too many eggs, so that all become chilled in turn.

Hens are set in boxes so small that they cannot turn safely, and the eggs pile on top of each other and are crushed, or layers are not excluded, and fresh and set eggs are mixed, broken, chilled and all spoiled. The cluck is not always fed and watered properly, is not often dusted for lice

SITTING IN COMFORT.

and is frequently set in an old nest where red mites most "eat 'er up."

While a few hens are perverse temper testers, the majority are ready to make good if given a fair chance.

Study your hen in the following particulars: Is she a broody breed, proper size, vigorous, quiet, steady and has she a motherly disposition?

The hen that is not willing to wear her breastbone to a frazzle on a corn-cob or a tin can should not be set.

Old hens are more faithful than pullets, and eggs may be freely trusted to the hen that allows handling and sits where you choose to place her nest.

DON'TS.

Don't get rattled when trade gets dull and sell fine birds for a song. Prosperity will come along.

Don't think women know nothing about chickens. You'll be fooled like the dickens.

Don't let frozen droppings accumulate under the roosts. They give roup germs a boost.

Don't neglect egg testing. One rank egg in a machine can spoil a whole

hundred, and the time lost knocks your early laying pullets.

Don't use a hatchet to kill your market fowls. Stick them back of the ear or through the brain with a sharp pointed blade.

Don't take up and advertise a new variety in a hurry. You may get bit and nit for your worry.

Don't forget that there are swindlers in every line. Beware of the man who offers a cheap gold mine.

Don't stand off and storm when facts are against you. Hunt a technicality and slip slyly through.

Don't sell stale eggs and not expect to be found out. You'll soon be going up the spout.

Don't ship fowls to customers in a heavy crate. You'll lose trade and they'll execrate.

Water For the Flock.

Many flockmasters formerly believed that sheep required no drinking water. Were you to ask some of these old timers why they did not provide water for their flocks they would answer, "The sheep get dew in summer and snow in winter." These are really not sufficient to quench the thirst.

Sheep troubled with internal parasites drink large quantities of water. Upon hot, dry days an average sized mature sheep will drink a gallon of water, provided the water is pure. The flock should never be forced to drink stagnant, slough water, for they are liable to take the dreaded fluke into their system from this source. Water standing in small pools exposed to the sun will soon become coated with a green scum which seems to cause scours. Water containing an excess of lime should not be given to rams, as such water is very liable to cause bladder trouble or gallstones. Ewes are almost exempt from this ailment. Soft water is best for the ram flock.

The sun purifies almost everything excepting water. With water it evaporates all the good and leaves the evil. Covered tanks are good where there is but a small drinking space left. Let your sheep tanks be filled by put well water. Running spring water is ideal for the flock. Pure cool water both winter and summer is a boon and blessing to successful shepherding.

DAIRY NOTES

Skim milk, which is whole milk minus part of its fat and which costs only half as much as whole milk, furnishes protein about four times as cheaply as beef.

Caring For the Calf.

Keep the newly born calf in the best clean, dry, warm place that you have, and especially avoid getting it chilled if you don't want it to have scours and become stunted.

Using the Separator in Cold Weather. If the weather is very cold it is well to run a gallon or two of hot water through the separator to warm it up before the milk is poured in. Then the milk will not be chilled.

Do the Milking Regularly.

Have a fixed time for milking and always be punctual. If you are running other farm work never allow it to crowd out your regular milking hour. It will not pay to do so.

Value of Good Cows Well Kept.

With good milking cows, well fed and well kept, milk can be produced at a cost of 65 cents per hundred and butter fat for 16 cents a pound. This is an average for the year round.

Richness of Milk.

There is only one way to measure milk, and that is by the percentage of cream it contains. The big yielding cow may be a robber so far as her feed bill compared with her return goes.
